

# PRATHAMASENSE

Right Antibiotic @ Right Time

# PRATHAMASENSE

## INFECTION DETECTION

**PRATHAMASENSE** is a groundbreaking device capable of detecting infection and antimicrobial resistance within an impressive 90 minutes, ensuring high sensitivity and accuracy in diagnostic results.

**India's 1<sup>st</sup> device that detects infection and antibiotic resistance within 90 min.**

### BENEFITS OF PRATHAMASENSE

#### ULTRA-FAST

Result in 90min

#### PORTABLE

Sturdy and Unique

#### USER-FRIENDLY

Lab Technician can perform

#### ACCURATE

Gene-Specific

#### ECONOMICAL

Up to 95% reduction in infrastructure

#### PATENTED

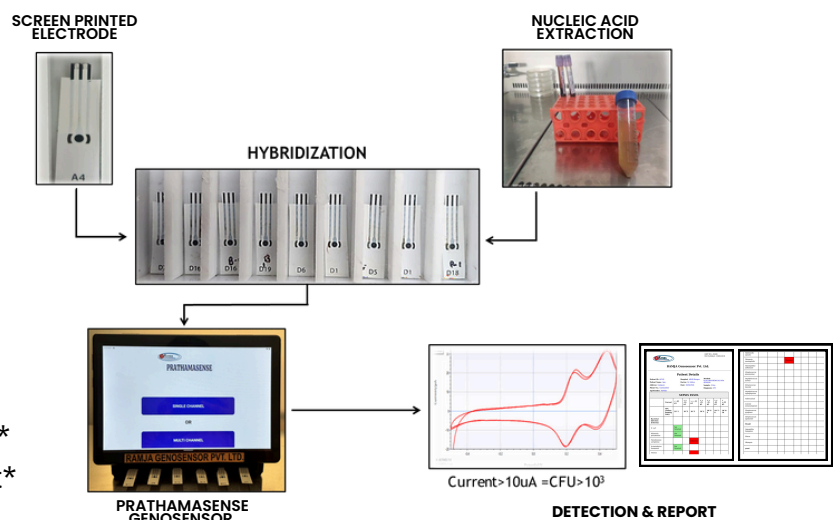

Clinical trial at AIIMS  
ISO13485 2016

**AS PER WHO, COMMON BACTERIA IS RESPONSIBLE FOR 3 MILLION DEATHS/YEAR**

### Infection Panels

- Antimicrobial resistance panel
- Urinary tract infection panel
- Sepsis panel
- Critical care panel
- Fungus panel
- Whole Neonatal Sepsis panel
- Respiratory panel
- Typhoid panel
- Meningitis panel\*
- Gastrointestinal panel\*
- Sexual transmitted disease panel\*
- Lymphatic Filariasis Detection Kit\*
- Malaria Infection Detection Kit\*
- Tuberculosis Detection Kit\*

\* Coming Soon, currently under R&D
